**EXAMINER'S AMENDMENT**

1. Acknowledgment is made in the receipt of the amendment filed September 15, 2004.

The amendment has been approved for entry.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Simonis on November 16, 2004.

The application has been amended as follows:

The abstract has been replaced with the following:

A transmission brake is arranged in connection with an electric motor for an electric brake. The transmission brake shall allow rotation of the motor shaft in a brake applying direction, but when motor current is no longer supplied, the shaft shall be locked. Rotation of the shaft in the brake release direction pre-supposes reverse rotation of the motor. A clutch is arranged between the shaft and a non-rotational housing. For accomplishing an engagement of the clutch at a rotation of the shaft but not the motor in the brake release direction there is a ramp.

***Allowable Subject Matter***

3. Claims 1-4 and 8-10 are allowed.
4. The following is an examiner's statement of reasons for allowance: the prior art of record fails to anticipate or render obvious a transmission brake having a ramp ring, wherein a driver pin extends through the shaft and into engagement with recesses in a radial end surface of the ramp ring, or at least one driver element radially protruding from a rotational member hub into engagement with circumferential recesses in the ramp ring.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas J. Williams whose telephone number is 703-305-1346. The examiner can normally be reached on Monday-Thursday (6:30-4:00) alternate Fridays.
